*Delve into a world where the boundaries between adventure and introspection blur against the backdrop of Earth's most captivating landscapes.*

This isn't just a travelogue; it's a testament to the indomitable human spirit. In an intersection of wanderlust and adversity, Barrett's raw and unfiltered narrative confronts the harsh realities of living with stage IV prostate cancer while embarking on a seven-month odyssey of Overlanding and skiing.

Chasing My Northern Lights is a beacon of hope for those navigating their trials. It offers a unique perspective on finding beauty in uncertainty and strength in struggle. With each turn of the page, be reminded of the fleeting nature of life and the importance of seizing every moment with courage and grace. From the celestial dance of the Northern Lights to the rugged allure of mountain peaks, be transported to the heart of the wilderness, where every sunrise brings the promise of renewal and every sunset whispers of resilience. For those who dare to chase their own Northern Lights, this book is a guiding light in life's wilderness.

## THOM BARRETT

Thom is an avid adventurer. His love for new places has taken him around the world, experiencing the cultures, the wonders of nature, and the challenges that each affords. He was a partner with PwC and worked there for 35 years before he retired and moved to Cape Cod. He now splits his time between his summers working in his workshop on Cape Cod building custom furniture and the rest of the year traveling with his furry friend, Dexter, throughout the Americas. One of Thom's travel goals is to travel the entirety of the Pan-American highway.
